Schedule: This week the team determined that working with a database isn't necessary. We are planning to focus on developing the basic functionality of our webpage. Additionally we are going to try integrating our python web scrapers directly into our webpage.

Risks: We have been having issues with websites using anti-bot tools to block our web scrapers and are trying to find a way around it.

WORK PLANNED FOR LAST WEEK

- Meeting with the sponsor to discuss roadblocks related to web scraping.
- Research and attempt possible database solutions and tools.
- Exploring how to integrate web scraping python scripts with a database.

WORK COMPLETED LAST WEEK

- **Daniel:**
 -
- **Diego:**
 - Team/TA meetings
 - Setup a local web page environment for testing.
- **Isaac:**
 - Created a working HTML/CSS site framework with landing page + links to future address/county pages
 - Created design document for site UI standards
- **Joseph:**
 -
- **Shuchi:**
 - I worked on combining all the county webscrapers into one script
 - Sat with the webpage team to see if we can connect their work with the work from the web scraping team. We ran into multiple problems and have yet to connect.
- **Walker:**
 - Attended Team and TA meetings
 - Planned catch-up meetings with sponsors
 - Attempted some web scraping on Broomfield and Realtor.com
- **Zach:**
 - Met with team to try and connect web scraping and website progress

- spent time trying to fix issues that arose from software dependencies
- discovered temporary work around for integration issues

WORK PLANNED FOR NEXT WEEK

- Finalize some of the county web scrapers that we have been having issues with.
- Start to integrate our finished python web scraping scripts directly into our website.
- Start building a front-end to allow the user to navigate around our website.
- Meet with Vinod to discuss progress and features.

OPEN CONCERNS

- Python and Next might be problematic when we try to move hosting over to the sponsor.
